Bengaluru, Karnataka, India

+91 9113237366 | hrushikesh.amenon@gmail.com

OBJECTIVE

Software Engineer with hands-on experience in Python, cloud technologies, full-stack development, and mobile application development. Skilled in building scalable applications, RESTful APIs, and cloud-native solutions using modern development practices.

EDUCATION

Master of Computer Applications (Cloud Computing and DevOps) Chandigarh University, Punjab	2024–2026 CGPA: 8.03/10
Bachelor of Computer Applications ABBS, Bangalore	2021–2023 CGPA: 7.88/10
PCMB - Karnataka Pre-University Education Reva PU College, Bangalore	2018–2020
Matriculation (CBSE) Kendriya Vidyalaya CRPF, Bangalore	2018

SKILLS

Cloud/DevOps	AWS (EC2, S3, IAM, CloudWatch, EMR Fundamentals), Docker, Kubernetes
Programming	Python, JavaScript
Frontend	React.js, React Native, HTML, CSS
Backend	Node.js, Express.js, REST APIs
Databases	MongoDB, MySQL, SQL, NoSQL
Software Engineering	OOP, SDLC, Agile Methodologies, API Integration
Tools	Git, GitHub, Firebase, Expo, Postman

EXPERIENCE

Prototype Developer (Ongoing) AxiomGreen Solutions Pvt. Ltd., Bengaluru	Jan 2026 – Present
- Developing the prototype for the Green Proof Ecosystem (GPE), an AI-powered platform for climate Measurement, Reporting & Verification (MRV), ESG transparency, and infrastructure verification. - Building cross-platform mobile application interfaces using React Native and integrating frontend modules with backend services. - Developing and integrating RESTful APIs for secure communication between frontend applications and backend services. - Designing and managing application data using MongoDB while implementing efficient database schemas and CRUD operations. - Collaborating with the development team to translate business requirements into scalable technical solutions while following Agile development practices. - Participating in application testing, debugging, feature implementation, and performance optimization throughout the prototype development lifecycle.	

PROJECTS

- **Self-Healing Cloud (SHC)** – Developed a Kubernetes-based cloud platform using **Kubernetes, Docker, React.js, Node.js, and Python** for real-time monitoring and automated recovery of failed containers.
- **AWS EMR Sales Data Analytics** – Developed a cloud-based big data analytics pipeline using **Amazon EMR, Apache Spark (PySpark), Amazon S3, and Python** to process and analyze sales data.
- **TutorLink** – Developed a React Native and Firebase application using **React Native, Expo, Firebase Authentication, Firestore, and Redux Toolkit** to connect students with tutors through real-time database services.

CERTIFICATIONS

- AWS Certified Cloud Practitioner (CLF-C02) – 2026
- RHSA I & II – Red Hat Academy
- React JS – Infosys Springboard
- Responsive Web Design – freeCodeCamp
- Python (Basic) – HackerRank
- Software Engineer (Basic) – HackerRank
